

REBEL Safety Gear Returns Policy

1. How does the REBEL Returns process work?

1. No returns will be accepted (either at any REBEL Branch or by its drivers or its Sales Reps) unless they are accompanied by an approved RTN (returns tracking number) that has been issued by REBEL Safety Gear.
2. If a Distributor wishes to return goods, they need to send a completed RTN form to directly to returns@rebelsafetygear.com. Remember to fill in the original invoice number and all necessary details pertaining to the return. Alternatively, the RTN requisition can be completed via the Distributor portal, where once completed will be sent directly to us.
3. Please ensure that a RTN is completed for each invoice number separately. Do not place multiple invoice numbers onto one RTN request.
4. The RTN will then be handed to relevant Rebel management to consider the request.
 - a. If valid and has been approved, a RTN approval number will be emailed to you. This RTN approval number confirms that the goods may now be returned to REBEL.
 - b. If invalid and has not been approved, you will receive a Declined RTN email, explaining the reason for the RTN request being declined.
5. Please note that the RTN number doesn't mean that the credit will automatically be issued – it's simply a tracking/reference number which now allows the REBEL goods to be returned to the relevant REBEL Branch.
6. Once goods are received, they will be inspected to ensure that they are 100 % saleable, or if faulty, that it is a genuine product default. Once inspected, either a credit note will be issued, or an email will be sent to explain why the return has been rejected.
7. Only goods with an approved RTN number will be accepted. If there is no approved RTN number, the respective REBEL Branch will NOT accept the goods.
8. Please note that this process needs to be followed for all types of returns, as listed below.

NOTE: Once the approved RTN Number is issued, goods must be returned within 14 days. Thereafter the RTN number will expire.
